Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-6 and 8-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brocken (D198,591), and further in view of Davis (US 4,204,596).

Brocken discloses a tray substantially as claimed, comprising a plurality of open-ended cavities having a plurality of ribs protruding into the cavities. The cavities are of uniform size and shape, are non-tapered, and are in the shape of a square, which is a polygon. The ribs are uniform size, and are evenly spaced and longitudinally positioned along and parallel to the sides of the cavities, extending the full length of each side. While it is likely that the polygonal elements shown in Figure 3 in the bottom of the tray are opening, it is not clear because Brocken's device is disclosed in a design patent. Davis discloses a similar tray usable for carrying bottles and positively teaches that holes 14 are purposefully placed in the bottom of the tray to promote drainage, and further act to conserve materials in the manufacturing process (Davis, col.5, lns.50-58). It would have been obvious to one in the art at the time the invention was made to place openings in the bottom of Brocken's tray in order to promote drainage and conserve materials.

Response to Arguments

3. Applicant's arguments filed 8/25/05 have been fully considered but they are not persuasive. Applicant contends that the apertures in the bottom of Brocken's tray as seen in Figure 3 do not constitute an "open end." The examiner respectfully disagrees and points to the definition of "open," as provided in the Merriam Webster's Collegiate Dictionary, 10th Ed., "*adj.* accessible on all or nearly sides . . . being in a position to permit passage." By these definitions the examiner maintains that Brocken's tray is "open," or accessible, or permitting passage, e.g. of water, from both sides.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan C. Alimenti whose telephone number is 571-272-6897. The examiner can normally be reached on Monday-Friday, 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on 571-272-7045. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
